Rising Up ANGRY a message to the People

EDITORIAL

Everywhere there are people into the revolution, people who relate strongly to Rising Up Angry. These are the brothers returning from Nam, and the grease who went to the Democratic Convention to fight kids and ended up fighting pigs. These are the freaks who got tired of just getting high in hippy ghettoes like Old Town and returned to the neighborhoods. These are the brothers and sisters sick of bullshit jobs, out of jails and prisons, the people whose life in Chicago and America has led them to know that Capitalism and Imperialism sucks, that pigs are bullshit and that revolutionaries around the world are not our enemies but our friends. These are the people who once fought Blacks, Latins and each other, but now know that it is the super pigs who create the misery for blacks, whites, browns, yellows and reds.

Wherever Angry goes someone says, "I'm in Angry. I dig it; revolution's the only solution." The people have been digging Angry, learning about revolution, talking it, acting it and most of all beginning to live it in their total lives. The revolutionaries in the neighborhoods, schools, army and places of work are the first among their group of friends to take the step forward and relate to the new ideas and actions that will move our people to a new place.

Yet these revolutionary brothers and sisters, who are more advanced in terms of ideas and understanding than others they run with, often run into difficulties that get them down. There's some kid acting like a neanderthal, who refuses to listen. Some who listen flip back into reactionary remarks and actions about sisters and blacks; others generally mess up, acting like fools and bringing down unnecessary heat. Sometimes in the neighborhoods we see our people so messed up on dope that they remind us of vegetables.

So sometimes that vision we have, that belief in a new world seems far away. Some revolutionaries get discouraged and back off for awhile, getting caught up in whatever is the current jive bullshit of the nightly ritual of the group. Others get pissed at their friends and stop coming around.

We can't let these things get us down. First of all we've got to be strong and fight the counter-revolutionary tendency of getting discouraged, because others haven't got a view of how to move beyond the mental and physical prison of the narrow day to day routine of the neighborhood, school, army and job. We must understand that discouragement and negative and cynical thinking are major weapons of the enemy. In the near future, when there is open rebellion across this land, the radio, TV, and newspapers will say: "The resistance is broken; people are calm and controlled; students have gone back to school and workers back to the factories." It won't be true. The enemy always lies, distorts and tries to discourage and demoralize the fighting spirit of the people.

We have to look to our black brothers and sisters in the revolution. They didn't get discouraged for three hundred years. Blacks, like all common people in America have had to be strong. And they've taken the strength of survival, the strength of "keep on truckin" and turned it into a strength that now builds for the people. Blacks always resisted oppression and exploitation, but it wasn't until Malcolm X layed out certain ideas, and the Black Panther Party developed a method to put them into practice, that blacks made a revolutionary leap forward.

Rising Up Angry was started precisely to build a fighting spirit anddevelop a revolutionary method to give white working people the knowledge, belief and courage to transform our strength of survival into a revolutionary strength that does the STP thing–Stops the Pig, Serves the People, and Siezes the Power.

We've already gone through many changes. Remember where we were at a few years back, into all that reactionary jive-ass-grease ideas and behavior? We didn't love ourselves, or the people, and that's why we messed over ourselves, our friends, our lovers, Blacks and Latins - everybody except pigs, bosses, brass, school administrators and chump businessmen. It's different now. No more bullshit rebellion like when we were kids and drew swastikas to blow someone's mind. Now little kids give the fist and V sign. Our people have changed: we can no longer be used by the ruling super-pigs as a rubber stamp for their brutal reactionary policies in America and throughout the world. No more; we have changed; we are a people Rising Up Angry, and the heaviest changes - that cannot be stopped - are still taking root in the unconscious depths of our collective minds.

We, the revolutionary people, have a responsibility to all the people. We must work with the brothers and sisters. We must use Rising Up Angry as the vehicle to get our people to go beyond their narrow view of their own lives, and understand that our people must be tied together, must be one! Our people don't have much time to read, and they won't be reading all of this issue of ANGRY. They'll dig the cartoon, the grapevine, maybe the GI stuff, the poster and the pictures. But many of them won't be reading this, and won't be reading about Nam and Palistine and Self-Defence. It is up to us to rap to them and with them. They will listen because one of those changes among our people is a great enthusiasm for new ideas. As revolutionary ideas get put into practice, the more the revolutionaries in the neighborhood act in a revolutionary manor, the more respect the brothers and sisters will have for the revolution.

Act in a revolutionary manor. When brothers fight each other because they are messed up on downers, we've got to say,'yeah, getting high is cool, but not when it destroys our people, our group.' When people are messing up for the hell of it, like smashing bottles where we hang and kids play, we say,'don't shit where you eat - save the bottles for cocktails.' If we're going to mess up, direct it at the enemy!' When brothers are into bullshit gang-bopping or messing over sisters, we can't let it slide. Choose the time, whether right away or later, but deal with it. We've got to move our people to a higher level, and we do that by how we act, by rapping about a new man, a new woman and a new world.

Our people have a potential beauty and strength that pigs and super-pigs never imagined. We, the revolutionary people, are like the sunshine that helps new ideas take root and grow. We are the trigger that transforms the strength of a people who've been forced to endure such bullshit, into a new and revolutionary people. The revolution will triumph because we the people will make it. All Power to the People!

ALL POWER TO THE PEOPLE!

KILLER JAMS

Free rock! Sly and the Family Stone! A dynamite time for everyone - just what the people want. Right, pig Daley? Wrong! The power of the people told the pigs, Monday night, just what they thought of Daley's free circus. After waiting more than 2 hours for a concert that didn't show, some brothers and sisters stormed the stage. As bottles and rocks began to fly, the pigs freaked and did their usual 'thing'. This time the people were together. Instead of running as they usually do, they stuck tight. Suddenly the pigs were uptight. They threw tear gas - the people threw it back. The people turned over and burned pig cars - smashing windows on others. As the pigs charged, the people split - as the pigs fell back, the people moved up. The people had a rock festival of their own. The bottles continued to fly as the people grouped and regrouped, charged and retreated. At one point, the pigs turned and fired a volley of several hundred shots at the people. Many were injured, but the fighting spirit grew stronger as the people faced the guns with rocks and bottles.

The best thing about the whole scene was it was a People's Thing. This time they can't blame it on 'a small minority of violent dissidents.' This time it wasn't the people fighting each other. This time it was a large 'majority of violent dissidents' fighting side by side - with the combined anger of blacks and whites exploding against the enemy. It was really only touched off by the fact that people waited 2 hours for Sly. Face it pigs, the people are pissed off. They wanted an excuse to waste some pigs and they made one. That's really where it's at. People are getting hip to who's been fucking them around all this time. We won't fight our beautiful people - We want pig's blood. We got it, too!!

POWER TO THE BROTHERS AND SISTERS WHO FIGHT THE REAL ENEMY AND LOVE EACH OTHER!

CABRINI

Cabrini Green - little boxes in buildings 20 stories high. A tiny swimming pool stands in the middle, a mockery to the thousands of children who live in this concrete jungle. Silence and calm is unreality - the nights are shattered by sirens and guns. And the pig is always on the prowl, forever trying to destroy his enemy - and to him, all that is black is enemy. On July 18th, the pattern is broken. Out of a sixth floor window, two shots are fired. The aim is right - two pigs, Severin and Rizzatto, are dead. Three attempts later, the bodies are picked up. It took three because people all over the projects were firing back.

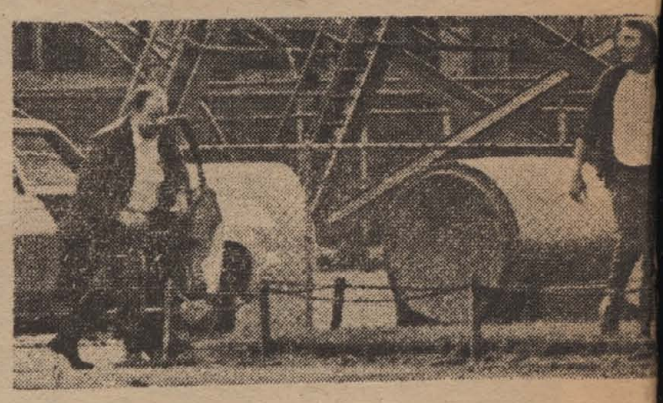
Today four Cabrini brothers are facing murder charges - one a fourteen year old 90 pounder. The evidence is slim and full of holes. But the pigs needed to blame someone. When in doubt, they always pick someone they're after.

And people everywhere are going thru heavy changes, figuring out how they feel about it. Some say, 'Wow.. like I don't dig pigs, but those were good guys. All they wanted to do was play baseball and maybe hang around'.

Even with smiles on their faces, and baseballs in their hands, Severin and Rizatto were pigs. And nice guy pigs are even worse than pig pigs. At least it's clear when most pigs are cracking you on the head and shooting at you that they are the enemy - they are protecting the rich chumps who run it at the cost of the people. But, a 'nice guy' pig tries to make you love the enemy. A pig is a pig is a pig! He only stops being a pig when he quits his job as a member of the armed force against the people. As a brother at Cabrini said, 'If there's anything I can't stand, it's a pig who tries to come off nice. Like, he's frisking you and shoving you around, and then when he digs up on his mistake, he tell's you to 'take it cool.' And then he drives away in his 'serve and protect' blue bubble. Serve and protect who? No pig ever asked me what I wanted or served my little sister free breakfast. But he's tellin' me to be cool.'

A PIG IS A PIG

IS A PIG



'Take it cool' - should blacks at Cabrini take it cool? The pig press talks about the walk and talk program and stops there. Why didn't they mention the fact that the walk and talk program is not just to give a Joe Smiley pig something to do? It's actually a walk, talk and spy program. Just like the pacification programs in Nam- give the people a few crumbs and hope that they'll talk. It was also no secret that the spy program was only a small part of the pigs' work at Cabrini. During the day, it was baseball - spy work and at night, the regular gestapo forces were always on the move. In fact, since July 4th, there's been a heavy increase in the amount of police brutality at Cabrini. And even the statistics only tell part of the story because most trials at Cabrini go no further than a beating or a death in the alley.

And so, what is to be done? Racist, two-faced pig Percy says the solution is to pass Nixon's fascist anti-crime bill, which makes America the reincarnation of Nazi Germany, with NO-KNOCK CLAUSE (yes pig - you have the legal right to break down my door), and PREVENTIVE DETENTION (and then you can hold me in one of your cages without bail - even if I haven't committed a crime). The Illinois Policeman's Association doesn't even use fancy words. They are asking for the right to carry even more high powered rifles so that there can be 'justice in the streets.'

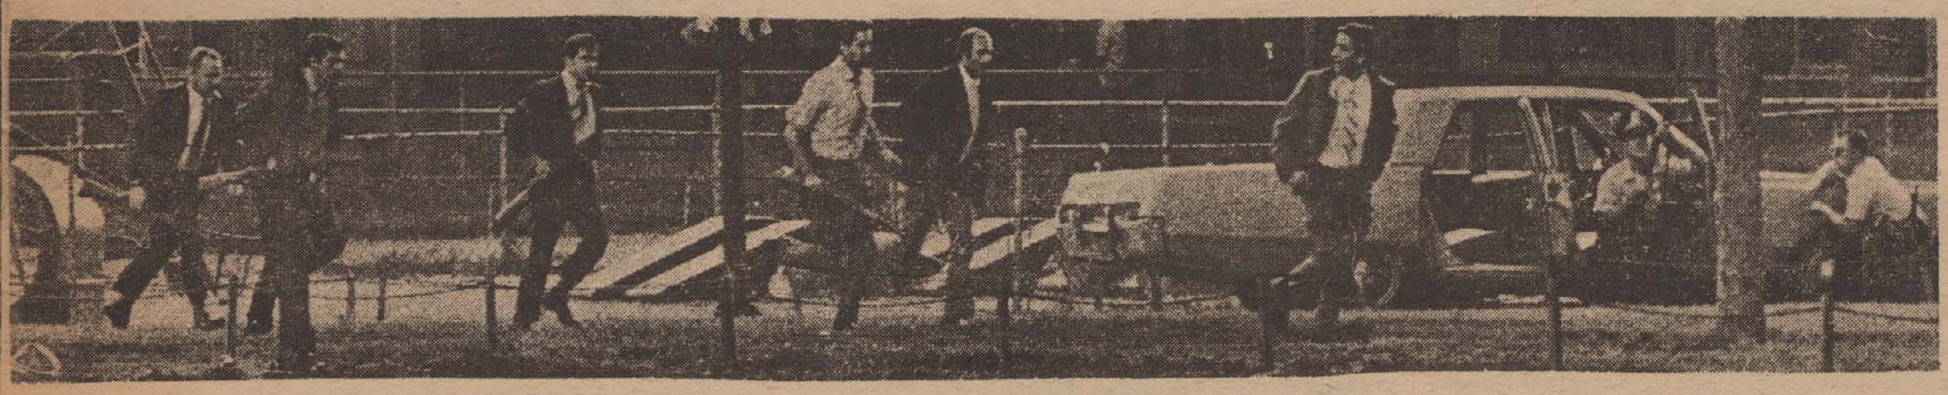
But even with all their high powered rifles, the pigs from Nixon on down to the dog in blue, are born losers. For we know that the oppressive conditions at Cabrini are not an isolated example. Black people in this country have 400 years of history to show us that. And we also know that the pigs' solutions will have nothing to do with justice. At least nothing to do with justice for the people. For the pigs who run this country have one interest, and that is their own. Their own power, their own bread, and fuck the people.

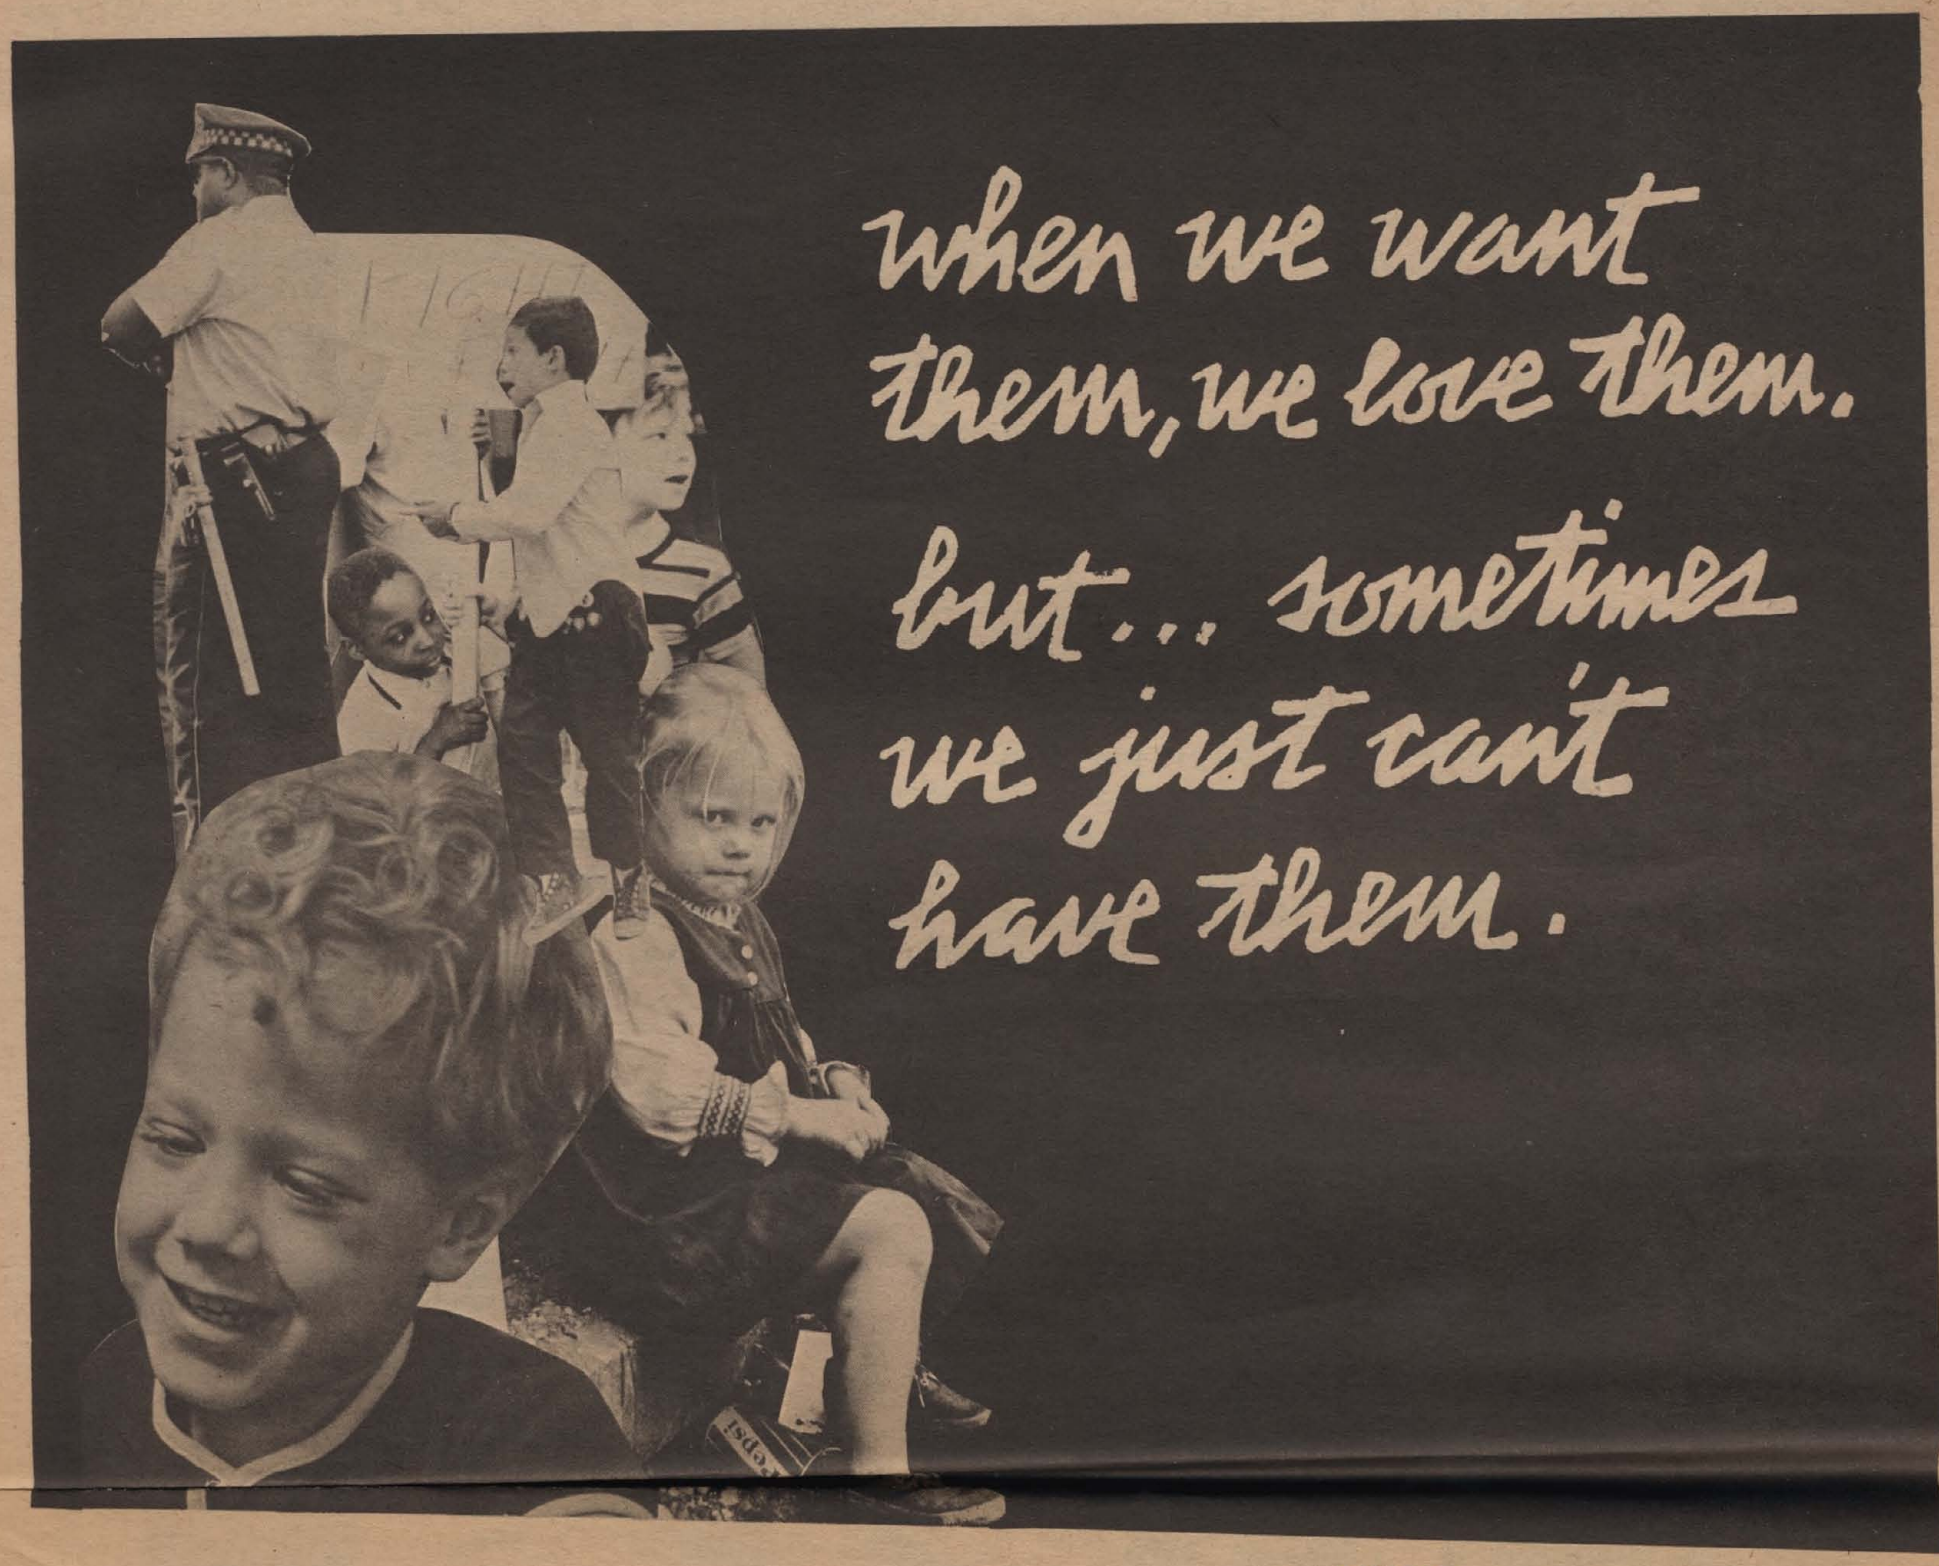
So, the pigs are the losers, for justice is on our side. And we will win because there are more people than pigs and pigs bleed just as Severin and Rizzatto did. And with the pigs' dying breath, a new life will be born - where the Cabrini s and it's racism, unemployment, inhuman housing, and pig brutality are only a memory of the worst nightmare of all- RACIST, CAPITALIST AMERICA.

So, we in Angry say that the time is now. People must decide whether they are going to be part of the problem, or part of the solution. Being part of the solution is to be armed and to be ready to defend yourself and the people at any cost.

PIGGY WIGGY, YOU GOTTA GO NOW! OINK-OINK
BANG! BANG!
DEAD PIG!

'An unarmed people are subject to slavery at any time.'
—Huey P. Newton





A year ago, it was a heavy thing to talk about abortions. Every once in a while there were hushed conversations about a friend who was uptight about having a kid, but even more scared about getting an abortion. Secrets from parents, borrowing alot of bread and heavy fears about the actual day when the abortion would occur - a black car will stop on so and so street to pick up 2½ month pregnant girl with 500 bucks in hand to whiskher off alone to an unknown place. And even worse were the stories about those who didn't have the bread - coat hangers, knitting needles and quinine water and the news items tucked away in the back of the papers about 'girl found dead in hotel room from hemorrhaging' - cause: illegal abortion. For a long time we heard these stories and some of us have lived them or had unwanted kids. And for a long time nothing was done. But then suddenly, 15 states liberalized their abortion laws and three of them, Alaska, New York and Hawaii, have made the right to an abortion a matter between mother and doctor.

On the surface it seems like we've won an important victory. But considering that abortions can mean our life or death, it is important that we check out the results and the effects of these abortion reforms. In New York, it is estimated that over 100,000 women will seek abortions in the city alone, and if the expected number of out of state women also travel to New York, the number could reach half a million. So lots of women want abortions - but who can get them? The answer to this has alot to do with how rich you are. Doctors and hospitals still charge high rates for abortions. While many medical associations are recommending 150 to 200 dollars for an abortion (this is for a 10 to 30 minute simple operation), most doctors charge more than this. One teenage girl from Queens called planned parenthood in New York and said, 'I'm 10 weeks pregnant and my doctor wants $650 for the abortion. My boyfriend and I can't afford it. What can I do?' Not much. Even though one of the initial arguments for legal abortions was that the outrageous prices that they charged before (because of the risk of the doctor getting caught) would be lowered. And since the laws were changed, 4 women have died from legal abortions. The cause: lousey, butcher-like conditions in most public and many private hospitals throughout this country.

So really, what comes down is we now have the right to dream about having a safe legal abortion like we dream about everything else in America which has a price tag - including good health. Abortions have become part of the fucked up world of legitimate medicine, with its "for-big-money-only" doctors and "not-enough-beds" hospitals.

But the real bummer about the way legalized abortions are now, is how the pigs are relating to them. You see, what they are uptight about is the fact that the majority of the world and millions of people in this country are rebelling because they are barely able to eat, much-less pay rent. So what the pigs like Rockefeller and Ford have to deal with is controlling the world's angry people - and if that doesn't work - they eliminate them. For example, the word has been around for a long time that many doctors at Cook County tie the tubes of unsuspecting black mothers when they are in the hospital for childbirth. A sister just back from Boston told us that the same thing happens in the public hospitals out there. Case workers now put lots of pressure on welfare recipients to either take birth control pills or else the check will be stopped. Now they will have the hatchet of abortion as a weapon as well. As the Black Panthers say, 'Racism plus abortion equals genocide, the killing of a race - of a people.' Blacks are fighting a war for existence and they need their youth as soldiers for their future.

So where does this leave us? Not a whole lot further than up against the wall. The new law is too muddled in the medical cesspool to really help us if we need it. Rather, the only time you can bet that the law will be quickly and efficiently acted upon is in erasing our future, especially if we're black, brown or poor-white.

we demand

* We demand that no woman be forced or blackmailed into having an abortion - that abortions be performed only on those women who absolutely want them.

* We demand that all abortions be performed by specially trained doctors who use the latest methods under the safest hospital conditions.

* We demand that all abortions be free.

ALSO -

* We demand that all hospital conditions be raised from the inhuman butchershops that they are, to sanitary and fully equippedcenters of medical care and careful treatment.

*We demand that all medical care and hospitalization be free.

STONE GREASE GRAPEVINE

SISTER NORI

LINCOLN PARK

On August 19th, the Free City rock concert was moved to the IWW hall on Lincoln ave. because of rain. There was a lot of free music, free food, and good vibes, but it was as hot as hell inside. So between sets brothers and sisters would go outside on Lincoln ave. for fresh air. Well, the pigs didn't dig seeing people together-- freaks, greasers, blacks, latins-- on the streets. So after harrassing people all day, one pig came up and ordered everybody to disperse. When someone asked this maggot "why?" he freaked and started trying to arrest everybody in sight. Well, a lot of people weren't going for it so they fought back and got away. But the pigs continued randonly beating, macing, and arresting people. Some brothers and sisters tried to break them free-- but not enough helped. So a brother and a sister from Angry and 2 other brothers were busted and beaten. Their charges ranged from battery on down, but their real crime-- getting together for some fresh air. Next time no one is going to jail and everyone will get all the fresh air they want. Dig it! All power to the brothers and sisters who fight the real enemy!

HYDE PARK

Pigs have been hassling everybody very heavy since we started getting it together. Pigs Frazier & Cool stop the brothers & sisters, search them, threaten them with jail, beatings, etc. They have tried to get into our houses without warrants. We don't dig pigs! McKey & Poagne, slum realtors, had their windows busted. This week somebody burned their office. Right on to the people who fight the enemy & win.

THE BUSH

Some Chicano brothers and sisters from the bush (South Chicago) got together and made up a nine point program, similar to that of the Black Panther 10 point program. It's a very heavy program, but too long to print here. What they say (in effect) is they want freedom and they know they can't get it in this fucked up racist country unless they get together with all oppressed people. That's why they followed the lead and program of the Black Panther Party.

Revolution Now!!
All Power To The People!!

SOUTHWEST SIDE

Some of the brothers on the southwest side have figured out how to distribute RUA all over the country. Guys who work in the shipping departments in their factories stick Angries in all out going packages. So stockboys everywhere will be getting hip to it.

Right on--pick up on those who slip it past the man.
By any means necessary.

55th STREET POINT

July 4th there was a rally at the point to protest the hasseling and brutality against black people at the rocks there and also the 55th St. Nike Missile base there.

A bunch of liberal peaceniks spoke and then the revolutionaries came on. The Panther Defense Comm. took over the stage to talk about the pigs beating on the brothers and sisters for playing congo drums on the point. The pigs had set up police lines across the base, and were using shotguns and .357 magnums to intimidate the people there.

Angry sister Norie got up and rapped about the revolution, and she told the GI's at the base that, "We don't consider you pigs. We know that some of you are in the revolution and that you are our brothers. All power to revolutionary GI's." Right on! Then Red Devil from Rising Up Angry and Hyde Park did his thing. He said, "I'm Red Devil and I ride with the revolution." So we'll be back people, to kick the pigs and the missle base off the point. Power to the People!

BROTHER BILL-CAPTURED

DAMEN AND DIVERSEY PROJECTS

Gilbert Sanchez was killed two years ago on July 17. On this date he pulled into a gas station and was shot in the face and it blew the back of his head off. The pigs did this with no provocation. He was the leader of a gang in the projects called the Barrons and that's why he was shot. The brothers & sisters of the neighborhood set aside a memorial spot for him in front of the projects and put flowers there and stuck together for two weeks and just fucked up everything. The pigs never told Gilbert's mother when the trial of the pig who killed Gilbert was because they wanted to keep the people from the projects out of there. The pig that did it got three years, but is now on the streets.

OFF THE PIG!!!
AVENGE GILBERT SANCHEZ!!!
ALL POWER TO THE PEOPLE!!!

REMEMBER GILBERT SANCHEZ

KILLED BY PIGS

RED DEVIL FROM ANGRY

PAULINA BARRY COMMUNITY

The five revolutionary brothers, who were busted on a bullshit charge, are free. Police lackey, Ted Machin, who signed the complaint - which was trumped up - failed to show his pig face in court.

The brothers and sisters of the community have gotten together and have done a lot of Revolutionary Wall Painting. Right on to R.W.P. because it educates the people and raises their consciousness to the struggle. We also say death to all pigs and their lackeys.

COUNTER ATTACK
Seize the time to kill the swine.

COZY PARK

On a Friday nite, a few weeks ago, some brothers were sitting in the park rapping, when a squad pulled up. One of the cops came over and singled out a brother, Joe, for some jive. Now jive for a pig has that punky pig power behind it and any time he feels like it he can vamp with his bullshit...'You're under arrest'. He did it to Joe. Joe said,'What for?' The pig oinked,'For drinking and disturbing the peace', and at the same time he came at Joe with his club and mace. Joe faught back. Squads pulled up all over and they beat Joe all the way to the pig station where they held him for 25 thousand ransom.

The only ones 'disturbing the peace' were the pigs.. and a peace sign won't hold off their clubs or stop the mace.

PIECE NOW!!

FULLERTON & PULASKI

Seems lately we been getting chased off our hang out "the slab" by pig Zintek every night. Apparently the insane fools who run the Embassy Dance Hall at Fullerton and Pulaski don't think we help their business any by hanging out in front of their parking lot. We guess the horny old ladies and hot pants old men who go to the Embassy don't dig seeing the grease and freak brothers and sisters havin' a good time. Well all we have to say to you lard ass pigs is we don't need your dime a dance hot spot in our neighborhood.

ALL POWER TO THE BROTHERS & SISTERS who

JONES COMMERCIAL H.S. STATE & HARRISON

Jones is a bummer, a prison that's called a high school. Going to Jones for summerschool is like losing your parole hearing. The machines that the student brothers & sisters are supposed to be learning on never work and then the pig teachers start vamping because everybody's sitting around.

Dig this dress code for the sisters---
—skirts no higher than the top of the knee
—hats & gloves---every day!
---heels---every day!
---no sleeveles dresses
—hair can't be shorter than your collar

Dig on these pigs that 'teach' at Jones---
—'Mr. Carey.', the so-called principal(chief oinker) who gets his ideas from the soap operas he watches all day on his office TV.
—'Miss Heinz', the old army Sgt., now the 'head grooming teacher'.
—'Mr. Junovitz', the 'busines math teacher' who smells so bad even the other teachers won't ride in the same elevator with him.

In June one of the sisters had an epilectic fit in the hall. Pig Assistant Principal Mrs. Foster told her to go back to class when the ambulance came.

Seems that one of the teachers wrote RISING UP ANGRY on the blackboard and started bumrapping RUA, saying that ANGRY is worse than the SEED. Smelly pig Mrs. Petersen, Carey, Foster, Heinz, & Junovitz are a threat to our lives and breath.

SEIZE THE TIME & OFF THE SLIME

91st & KINGSTON

Remember in the last issue of ANGRY where we said people should start educating the people by drawing fists on walls. Well, some brothers & sisters went one better & made a stencil of a fist & began putting it around the 91st & Kingston area. It was so effective they put it in the papers. Do it brothers and sisters.

PITTSBURGH LETTER

Dear Angry,

Right On people. We dig what you're doing concerning the grease of Chicago. We in Pittsburgh, have been organizing slick brothers and sisters for two years. We put out a paper called I'm All Right. We say to the pigs- 'I'm all right - slick power to the working class people.' We're dealing on the streets night and day to bring about a decent change for our people. One thing that blows the pig's mind is that the so-called,'loyal American white working class' is rising up angry. That's right pig - I'm all right! Solidarity between grease in Chicago and grease in pigsburgh is one step closer to the liberation of all the people in Babylon. We give fasist america this warning: Don't fuck with me pig - cause I'm All Right and I'm Rising Up Angry.

Solidarity with our people.
Slick Power!

OUR SISTER IS DEAD

July 16, 1970 - Evelyn Okubo, 18, found slain in Chicago's posh Palmer House. On July 16 reality came to the Palmer House, reality came to the members of the convention of the Japanese American Citizens League who were staying at the Palmer House. These were the people that Evelyn Okubo came to Chicago to speak to. She was one of the Asian brothers and sisters who came to remind them of the Hiroshimas happening right now-- Vietnam, Cambodia, South Africa, Georgia, Mississippi, Watts, Harlem, Chicago.....

WHO KILLED EVELYN
WHO KILLED OUR SISTER

What happened to Evelyn is not the result of one man's doing. Her blood is on the hands of those who perpetuate and tolerate the racism that exists in our society. As her brothers and sisters, her death strikes and hurts us in a personal way, but we must know that Evelyn is the child in the ghetto bitten by rats. Evelyn is the oppressed people here and all over the world.

WHAT WE MUST DO

First, we must recognize that the real enemy is this system which promotes racism, exploitation and inhumanity and allows the real criminals to go free and puts the victims behind bars.

We must begin our struggle. As Asians, we must united to fight racism in this country. We must unite with all Third World people to fight Racism, Capialism, and Imperialism.

The loss of our sister, Evelyn, has only strengthened our commitment. Evelyn is in our hearts as we struggle to united our people and fight the real enemy.

RIDGEWAY FAITH

The pigs from Shakesphere (14th) are making us play musical corners. They forced us off Ridgeway and Fullerton, and now off Monticello and Wrightwood. A couple nights ago, out of nowhere, a paddy wagon pulled up and loaded a bunch of us in. Then we started hanging on one of the sister's porches after a pig said no corners, just porches. Then two squads busted us off are own sister's porch.

The latest place is Ridgeway and Altgeld, by the Catholic church, and now the priest is hasseling us. It's true that the oppressor (the pigs) create the conditions that force the people to resist and fight back!

YOU CAN KIDNAP US, RIP US OFF THE STREETS, BRUTALIZE US, AND RANSOME US FOR THOUSANDS OF DOLLARS. BUT YOU WILL NOT BE ABLE TO STIFLE THE REVOLUTIONARY SPIRIT OF THE PEOPLE!

LEAMINGTON - CHICAGO

With the pigs hasseling us on our corner and at the parks after 11:00, we have no place to go. We are going to demand our rights. A sister, Barbara, is going to have a baby and it will be the youngest and most free person on the corner.
Right On!!

LINCOLN SCHOOL

My boyfriend and I were hitch-hiking to the hospital because the stiches were coming out of my hand when 2 pigs pulled up and told my boyfriend he was under arrest. When I told them it was an emergency they said it didn't matter. I told them I wanted their names to report them and one pig grabbed me (my bad hand) so I cussed him and kicked him in the crotch. As the stiches came out I hit him twice more before the two of them got me into the squad car.

At the station, when they asked me my age I said "2-16-53" and when he asked me when I started to hate the police I said "2-16-53." He grunted, threatened to kill my b.f. and told me what fun they had at the Dem. convention. I gave them a bullshit story about my parents being out of town and they dropped charges. But when I went to report them I was told that nobody ever had heard of them. Shit! The pigs protected their own kind that time but they will be dealt with on a heavier level soon. OFF THE PIG!!!

There is a new facist bookstore in our neighborhood. It's an American Opinion bookstore, which is run by the John Birch Society. It is pushing racist and facist literature. It probably moved here to try to stir up trouble by bringing out the racist whites and trying to intimidate the black people in the area. Most of the people who go in and out though are older and not from the neighborhood. The people don't dig the John Birch Society or any facist organization moving into their neighborhood and we will not be fooled by the bullshit literature that they push. Off the Pig!

LOS SIETE

The trial of Los Siete de la Raza is over 4 weeks old. These are 6 brothers (the 7th hasn't been caught) charged with murdering pig Joseph Brodnik on May 1, 1969, in the mission district in San Francisco. The 6 brothers, Tony Martinez, Mario Martinez, Gary Lescallet Nelson Rodriguez, Bebe Melendez, and Jose Rios, were all activists in the latin community.

The prosecution is really out to get them, they are asking for the death penalty. They are also charging them with assualt with intent to murder McGoran and with burglary. Charles Garry, their lawyer, says that McGoran is a "racist, a liar, and a drunk," that he was drunk on May 1st and trigger-happy, started threatening the brothers, picked a fight with Gary, and shot his partner by mistake. McGoran has a long history of brutality, racism, and lying, and the defense is planning to call witnesses who have been unlucky enough to have had experiences with McGoran's brand of justice in the past.

The incident of Los Siete is not an isolated one in the brown community or any other third world community in San Francisco. When the jury goes out, at the middle of August, Los Siete is calling for a national demonstration in San Francisco to demand the freedom of the 6 brothers, the 3 black men from Soledad prison framed for the killing of a guard and all other political prisoners in the jails of America. FREE LOS SIETE!!

PEOPLE'S PARK

On Sunday, we from Angry, got together to celebrate the 26th of July, an important Cuban and revolutionary holiday. In the morning we all got together at Foster Beach, swimming, eating, playing ball and just grooving on each other. Later, we joined our Latin sisters and brothers for a pig roast and rock festival, sponsored by the Young Lords at People's Park. We weren't the only ones digging up on the 26th. Brothers and sisters all over the world were showing their love of the Cuban people and their revolutionary spirit, by observing this aniversary of the attack on Moncada Barracks, the beginning of the Cuban revolution.

MILWAUKEE FOUNTAIN

Milwaukee's common council enacted a curfew on the people's gathering place, the North Avenue fountain. Greasers, bikers, hippies and students get together here to talk politics, smoke dope or just doing it.

The brothers and sisters didn't dig the facist curfew, so for two nights before the curfew went into effect the people got together, took the streets and trashed some pig businesses. On the night of the curfew, 2000 people gathered to hold the fountain and deal with the pigs. First the curfew signs bit the dust, then the pigs charged with smoke bombs and clubs, the brothers and sisters responded with rocks, bottles, bats, fire bombs and hand to hand combat. After that, brothers and sisters took the streets, trashing pigs, pig cars and pig stores. The American Legion post was fire-bombed to the tune of $5000. This happened three nights in a row, July 13, 14 and 15.

One pig was beating on a sister who was 6 months pregnant, a grease brother saw this and he disarmed the pig and beat him bloody with his own club. 80 people were arrested for the usual bullshit charges, by the tac-squad, which is usually used as an invasion army to keep the black brothers and sisters down.

POWER TO THE BROTHERS AND SISTERS WHO KICK THE ASS OF THE RULING CLASS!

LOGAN SQUARE

The spirit around here has been out of sight. Every nite there are more people in the playground or on the corner, and down by the eagle. We've been rapping about lightening up on pills and bad dope. We're too beautiful to have ourselves all fucked up. But we're hungry for some people stew. The nation is coming together all over the land and in beautiful downtown Logan Sq. the tribe is getting it on. Its a stoned out trip to meet other tribes, to feel the power of the people. Travel, dig the tribe all over the city. Visit beautiful downtown Logan Square. The Kickapoo nation is alive and well. All Power to the People!

FREE BUSSING PROGRAM

The Black Panther Party is trying to implement a FREE BUSSING PROGRAM. This bussing program will be for all people, especially parents, relatives, and friends of prison inmates. This program is designed to enable visits between people and those beloved ones locked up in the many prisons and jails around the state.

We want the people to observe the notorious conditions at some of these institutions. We want you to see corrupt prisons in operation and also go to these various prison officials and let them know that they are being watched. That they are being watched by the people, and their actions will no longer be hidden in the darkness of unawareness, but shall be exposed in the light of awareness and political consciousness of a people who have the ability to change this society.

Rising Up Angry is participating in this program and we need your help to make this a reality. Let us know of any church, school or organization that has transportation and would like to donate some time to the liberation struggle. Let us know if you would like to visit people; rides can be arranged to St. Charles, Sheridan, Vandalia, Menard, Joliet, the House, and other places where you have loved one to see.

THE DAYTON STREET LATIN KINGS AND THE CORP

We are sad to relay this information:

The Dayton Street Latin Kings and the CORP are still going at each other. At this time last year they had just cooled things out (see RUA vol. 1 no. 1 July, 1969). Things went ok for a while. Then in the late spring, some shit started up. There was a meeting to try and work it out. Some of the revolutionary Kings from out on Division St., rapped with some of the CORP. It was cool, but after the meeting, at the old red hot stand on Halsted and Dickens, they got into it. The Kings involved had not been to the meeting. A brother from CORP got messed up pretty bad. For a while there were only minor hassles, and at one point the pigs sent some dudes in to stir up trouble. Recently there have been mutual beatings and shootings. The pigs play one group off against the other, and then are heavy on both groups. In each group there are people hip to the revolution who've tried to cool it out; in both groups there are brothers hiding from the problems of starting to build something new and a billion others trying to cop their super buzzes.

The pigs are digging it because brothers are fighting potential friends instead of enemies; looking to the west when they should be looking to the east. We dig brothers in both the Dayton St. Latin Kings and the CORP. It's clear that they've both got some chumps. Both the Kings and CORP have Latin brothers and white brothers. Both have people that will be fighting in the same guerrilla units if they don't kill each other off first. Meanwhile, the neighborhood gets torn down by urban renewal and the notoriously vicious 18th district pigs vamp on the people!

PUN PLAMONDON
Prisoner of War

Our brother Pun Plamondon, White Panther Party Minister of Defense, was kidnapped by the pigs on July 23, in upper Michigan. Pun had been on the FBI's 10 Most Wanted List for 9 months – supposed crime, blowing up CIA buildings. He went underground to show brothers and sisters that we can live underground as revolutionaries. He showed us that the man isn't as together as he wants us to believe. He showed us that we fuck with the pig and still get away. Pun was caught, but there are MANY who are still free. When a brother or sister is underground, we must do everything to help them and if they are caught, WE MUST FREE THEM!

Our underground is still secure. You can jail the Revolutionary, but you can't jail the Revolution!

PUN

WHAT IS A PIG?

"A low natured beast that has no regard for law, justice, or the rights of people; a creature that bites the hand that feeds it; a foul depraved traducer, usually found masquerading as the victim of an unprovoked attack."

C & D

About 5 of us were sitting in the park and one guy had an old unloaded 3.57 magnum with a bent plugged barrel. All of a sudden, an unmarked car pulled up. About 15 others came too. We started walking out of the park and a head pig, in a white shirt, asked what were you flashing. The guy said nothing. The pig said up against the fence and he frisked and found the gun. The pigs beat 3 of them for about ½ an hour and then took them in. The next time it will be loaded.

GI'S TELL NO LIES

letters from brothers

Paris Island

Returned from Nam and peeped your gig while in Ann Arbor...definitely a heavy gig... Right on, Right on, Right on...Keep on keeping on...All power to the people.

Chanute

One of the brothers from the Southwest side has turned us on to the underground paper at Chanute. It's called a FOUR YEAR BUMMER-- check it out, it's a heavy paper. For the brothers stationed at Chanute, you should check out the free film showings each saturday night in Champaign.

Great Lakes

Day by day more of the inmates of Great Lakes Naval Training Center are beginning to free themselves from the mental and physical slavery they've been subjected to. Much of this is due to the efforts of NAVY TIMES ARE CHANGING and more recently the MDM, which has finally begun a chapter here at Great Lakes. The brass knows this and don't like it because it could soon have their men thinking for themselves. And what use is a thinking man to the materialistic fascist war machine? So they have been doing their best to hassle any freedom efforts-- using threats, bribes, beatings, busts-- all the disgusting tools they unfortunately have at their disposal. They've managed to scare the landlord of MDM's new office into trying to back out of his lease with them before they even had moved in. He said he was afraid of any 'illegal' things they might do. But this bullshit is expected and their efforts to become increasingly more futile. A beachhead has been established and shall not easily be lost. Your paper provides much needed encouragement. Keep it coming true and strong.
ALL POWER TO THE PEOPLE--BROTHER DENNY.

Pendleton

Besides all of the heavy stuff that's been happening on base, a lot of the brothers from Pendleton have been getting fucked over here in the midwest. Pvt. Hal Farmer from the southside was AWOL and when 3 FBI pigs came to pick him up at his home they got into a hassle with some of the brothers. One of Farmer's friends was shot by a pig.

Another brother from the 26th and Kedzie area who was stationed at Pendleton, is sitting in the slam down in Bloomington, on dope charges.. What happened was that at the Kickapoo rock festival a pig tried to bust the brother, but putting what he had learned in the crotch to use he disarmed the pig, and was about to off the motherfucker. The reason he didn't was that he was in a crowd and he didn't want to hurt any of the people. Now they're letting him rot. It's the same in Chicago as it is at Oceanside-- peons have no rights that oppressors are bound to respect.

Nam

I have read your paper and found it to be very true. I am one of the poor sap-heads that got trapped into the army- fuck the army. I too hope for peace, but peace won't come easy, not now, not ever, at least not until all the asses in high places are brought down. They call us bastards, junkies, and a few other choice things, but it doesn't mean a thing, because I'd rather be a bastard than part of a corrupt society filled with hate and death. Being a GI ain't all roses and sunshine, it's a lot of bullshit-- shine your shoes, keep your clothes starched, follow orders, bullshit! Plus being a GI, everyone seems to think that the trouble in Nam is my fault.

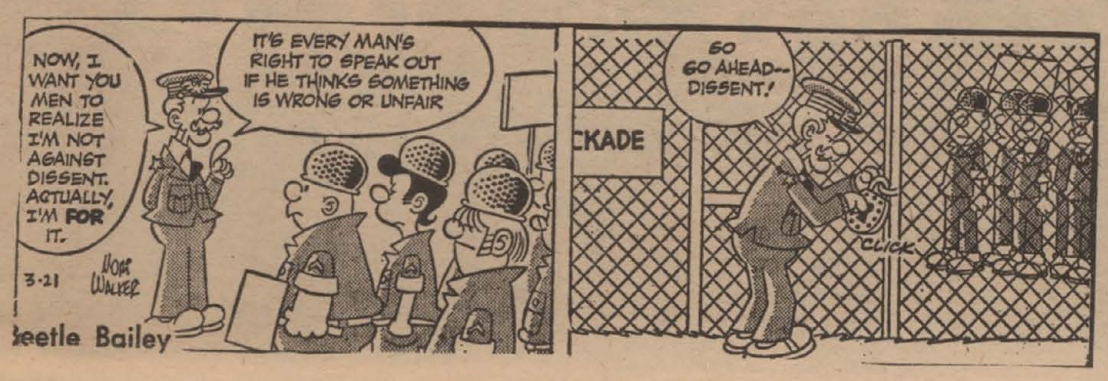
I have one more thing to say about the army, if your in, try your damned best to get out, if your not in, keep the hell out. IF THIS IS LIFE, LET ME OFF! NIXON'S ARMY CAN GO TO HELL!

Ft. Sill

Us people in the Army are really getting pissed on, and I think it's about time we dudes get together. I'm a GI at Fort Sill, Oklahoma. Dude's that have been in that shitty bag or that are in it now know exactly what I mean. I mean you got this Pig who's been in this sadistic, Immoral, Assinine organization for 20 years telling you how things are supposed to be done. The Army Way. There's a saying here "there's 3 ways to something--the right way--the wrong way--and the army way. These pig (lifers) are really something. I mean they've been in the army since they were 17 and taught how to eat shit and dig it.

I mean what kind of a person says "OK. I don't want to think anymore. I want you lifer pigs to tell me what to do, when to do it. How to do it, but not why. I'm a person with a mind and I ask why, and they say shut up, or give you an article 15. But their favorite statement is "You're not getting paid to think." Yea man! Get hip! That's exactly what they want us not to do--THINK! Because you think and you end up thinking REVOLUTION!!! For the people and that's what its all about. Dig man, our brothers and sisters are outside in our home towns fighting the pigs for us. The least we can do is fight the lifer pigs for them. You're gonna say you can't fight the army. The army can't stop us all. GET TOGETHER!! Blow up an MP Station, your motor pool, even fucking Lawton. You know it's a pig town. Some day us GI's are gonna get together. We gotta. If we could get together they could never stop us. All we gotta do is all walk out together, but you guys just don't want to get together; Remember that dude's your brother. They make us wear that uniform, to make us all the same, organized. So let's get organized and fuck the lifer pigs! Fuck up A.M.P. cars. Show them we're through getting fucked with. Let them know, even though they've cut our hair, and make us live in dull piggy barracks, we're still the people, and for the people, and remember: All Power to All the People! F.T.A.! The revolution is here; be a real person and fight for freedom, from the army. Why be a pig follower, why conform? Quit playing their silly ass game. REVOLT!

THE PEOPLE ARE TOGETHER AND NOW ALL BROTHERS IN GREEN WILL GET TOGETHER FOR THE PEOPLE! Big Duece



NOW, I WANT YOU MEN TO REALIZE I'M NOT AGAINST DISSENT. ACTUALLY, I'M FOR IT.
IT'S EVERY MAN'S RIGHT TO SPEAK OUT IF HE THINKS SOMETHING IS WRONG OR UNFAIR

LIVE TO RIDE RIDE TO LIVE

There's nothin' like a scooter, especially a Chopper with a raked out and extended front end, del-orto carb 10-1 mc pistons, peanut tank, high pipes, sissie bar and everything crome. There's just somethin about it. You get an old Harley and build it up, it becomes, just like a part of you. Because you build the motherfucker up just the way you want it, get shit made special for it, wait for parts from the coast, jam all around the city tryin to find some plater to do your aluminum. Buildin the motherfucker up, part of your soul goes into that bike.

Then after all winter fuckin' with it, spring comes, riding season, time to get on the road. It usually takes some time to get the son of a bitch runnin' right, but it's worth it. Shit man, a lot of dudes would rather ride than eat. I'd rather feel the wind in my face than eat a steak dinner myself. It's a trip puttin' down the expressway with your feet up on the pegs and your hair in the wind. Blowin the mind of some funky ass businessman in his air-conditioned Cadillac. It's cool to pull up along side those creeps and tell them,'Eat my shit.' - or anything raunchy, just to flip 'um out.

But things ain't as cool as they used to be. The pigs have been fuckin' us around. It was cool when some of the brothers got together and pressured some pimple assed legislator to get the helmet law repealed. But there is still too many jive laws, like you gotta run with your lights on all day, you can't have high bars, you gotta run with shades on, what the fuck is this shit. These pigs gotta go with their brand x laws. That's why it's such a bummer to see some brothers playing pig at these rock festivals and shit. The pigs are the enemy of bikers, greasers, and freaks alike. Know the real enemy, the dudes who's bringin' all the shit down. The system that sends the brothers to jail. We gotta find out who they are or things are gonna get a lot worse.

Brother Dies On Downers

Pusher is a Pig

A few weeks ago on a warm summer night a group of kids decided to get away from it all and go for a late night swim. Little did they know that their adventure would end up this way – before the night was over, one guy was dead. Drowned. Why did this happen? DOWNERS have struck this neighborhood just like many others. This isn't an isolated incident, the night before some guys were playing on each others shoulders in shallow water – results: one broken back.

What does this all mean? There are many reasons why people plunge into the barbiturate poisonings of nembutals, christmas trees, red devils and others. Why the fuck are people doing this to their lives? How does this shit start and where's it coming from?? In August of 1969, Operation Intercept (a government project to cooperate with Mexico and stop all marijuana from crossing the border) went into full swing. When this occured, because of the lack of 'smoking' dope in the neighborhoods, a heavy supply of downs and smack suddenly came to take it's place. The pigs, like Nixon and his running dogs – the mafia, who were in control of operation intercept, know there is a revolutionary stir in the air. They also know the perfect drugs to settle the peoples' energies are downs and smack.

So brothers and sisters – take it from there. Some people are now too fucked up on this dope to even worry about their selves, let alone anyone else! Red eyed morons, walking dead people, hole armed addicts, feeling that life is too much for them, sit around lifeless – just waiting to cop their high. But dig it Brothers and Sisters, that high is bullshit man – it ain't even a high– it's a down. A down on your people and a down on yourself. Get high, but get high on the people and the revolution – build a better world! Revolution is the solution, insurrection is the correction!

BOIL THE PIGS IN THE MELTING POT!
revolution in Ireland, Italy and America

ITALIAN POWER IRISH POWER

Italian Power! Irish Power! Don't say it, because its reactionary, anti-the people--and that includes most Italian and Irish people too.

Take two levels, here in America and back in the old countries. Dig Chicago, pig institutions, like the government and its sleeping partner the syndicate (outfit, mafia). Both are run by super-pig-chumps. Many of these screwers of the people happen to be Irish and Italian. That's Irish and Italian Power, and that's why its a drag. Its not the same as when Black people say Black Power, or Indians say Red Power. They have no power as a group, whereas certain segments of the Italians and Irish (as well as Poles, Germans, English, Greeks) do have power, power to mess over the people including others of their own ethnic group. They use their power against the people.

Take the international level, where the people are fighting the Capitalist-Imperialist super pigs. Look at Ireland, look at Italy, and we see that people like us over there don't say Irish Power or Italian Power. They are fighting the Irish and Italian pigs who've got power. Its precisely Italian Pig power and Irish pig power, part of International Imperialist Pig Power that they're trying to kill. And these revolutionary brothers and sisters in the old countries---workers, kids on the street, students, whole families---stand with the revolutionaries of world, of all colors and all religions. Right On!

Rising Up Angry is proud that we've got all kinds of people. We want to make it clear that those of us who are Italians, and Irish, stand in solidarity with our brothers and sisters across the sea who are doing the dog over there, just like we're doing it here. Our families came from having nothing and now they've got a little bit. But they're losing it because of Capitalism and Imperialism, the same system that hurts our brothers and sisters in the old country. So we say to our families --WAKE UP! The solution for you, like us, and like the old country is revolution. Come with us, or move over. We're not waiting. All Power to the People.

Death to all variety of PIGS!

BROTHERS AND SISTERS GET DOWN IN NORTHERN IRELAND!

Irish sister Bernadette Devlin, was recently sent to jail on a 6-month prison charge for 'leading' riots by the people against British occupying troops last summer. That started things off again in Northern Ireland where religion is used by the British Government and the Ulster rich to divide and conquer the working people. Voting districts are fixed so Protestant candidates always win and Catholics have hardly any rights. Conditions are even worse than last year, affecting both Catholics and Protestants. Like in the U.S., where the rulers try and get whites to take out their frustrations on blacks and latins when there is economic crisis, the British rulers have encouraged Protestants to fight Catholics. The poor Catholics have been fighting back. There has been street fighting, cocktails, rocks and guns. The people have sniped on pigs. At least seven people were killed and hundreds injured in the battles at the end of June. The revolutionary struggle in Ireland, both North and South, is moving forward. The struggle for freedom in the North is most intense, and is awakening all of Ireland.

Kid with molotov in Southern Italy

Italian-American Revolutionaries Joe Ettor & Arturo Giavannitti.

ITALY AND AMERICA

Italy is run by imperialist pigs, just like America. Like here, people there are moving in a revolutionary direction. We don't get a lot of news about what's going on, so here are some basic thing: strikes are happening all over Italy. Postal workers are out, three million metal, chemical and construction workers have been out. At Fiat, auto workers assaulted the administration building and forced thousands of office workers out on strike too. The workers forced the government to resign. Right on!

Throughout the country students, workers, peasants are in rebellion. The police and the padroni (bosses) are going nuts arresting activists, firing militant workers and having pigs attack picket lines. In the south, the poorer part of the country, people have been forced to leave the land for years. Many of them move to northern industrial cities where they pay up to $200 for one room shacks. A squatters movement has developed, with thousands of people moving into unused luxury buildings. Beginning last August, over 20,000 people have moved out of the ghettoes, into such housing complexes as the Via Dei Prati de Papa (Street of the Pope's Fields.) This apartment complex is owned by the Mafia-backed Bank of Sicily. Power to people who screw the landlord.

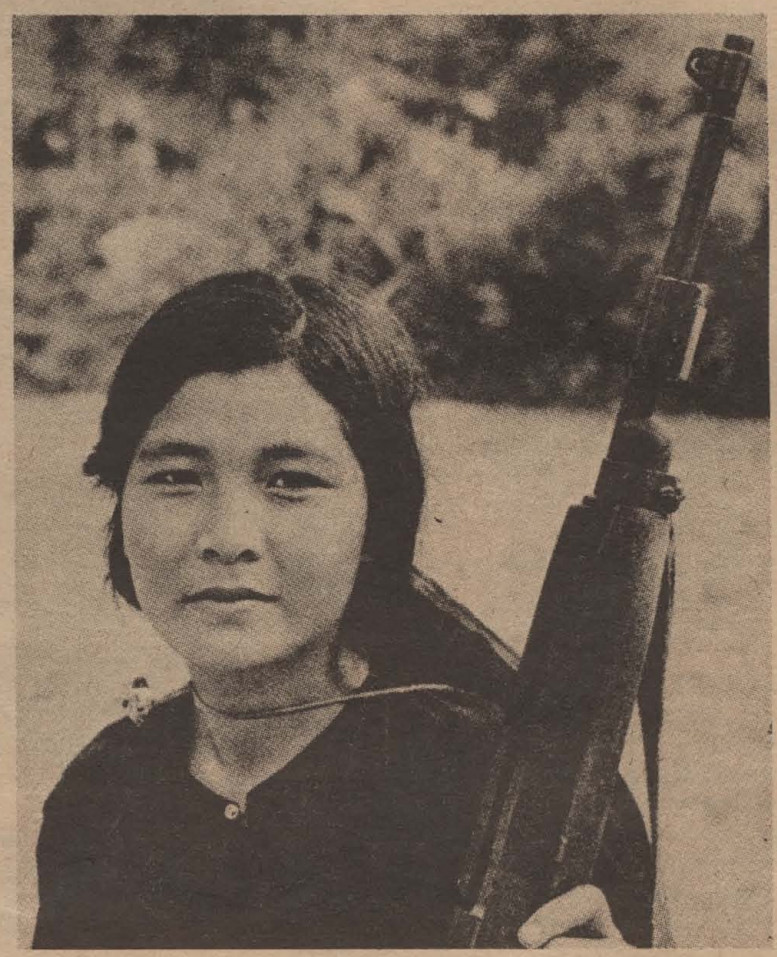
Many Italians in this country have been revolutionaires, like Joe Ettor, an Italian who organized for the Industrial Workers of the World, and led the great Lawrence, Mass. textile strike back in 1912. He was dangerous---he spoke Italian,Polish and English-he could talk to all the workers. They tried to frame Joe on a phoney bomb charge, just like the Panther 21 in N.Y. today. He beat it, got framed again and spent a long time in the slam. There were many others, like Arturo Giavannitti, also a leader of the Lawrence strike, and Sacco and Vanzetti, who were framed and murdered in 1927. Some of us have old Italian friends or relatives who remember revolutionary action years back. Many were part of it. But a lot of our people got messed up. They think they're making it and America is cool.

Recently there has been a move in New York protesting against the FBI automatically connecting Italians with the Mafia and Cosa Nostra. But there were a lot of contradictions. First the Mafia itself called a rally on June 29. Second, not only did the rally protest FBI and Press treatment of Italians, but also tried to show that Italian-Americans stand for law and order behind the super-pig rulers of America. A lot of political types showed up, from right wing Italian politician chumps to liberal politician chumps. Everyone seemed to be vying for the 22 million Italians in America. A heavy love America thing was pushed, as well as law and order. There was no mention of a homeland in turmoil, or the millions of Italians in the old country who were fighting the pig, fighting the padronis, and the same U.S. controlled international corporations that screw the people all over the world. No, it was a good American show: there was enough money behind it to provide banners, streamers, fireworks, buttons, posters and to close every store in every one of New York's Italian neighborhoods. Somebody was putting on a show.

But not everybody bought tickets. As eleven thousand people marched to the FBI office, scuffles with pigs broke out. The older people said "we believe in law and order." And the younger brothers and sisters fought pigs. There was blood. Two pigs were stabbed. They could have even been Italian pigs. The revolutionary Italian Americans who did it got away.

SELF-DEFENSE MEANS...

Defend your home from the Pigs



Defend your country from Pigs...

Self Defense Its A Peoples Thing

We've been doing a lot of rapping about how to buy, clean and operate weapons. That's because we understand that if we want to change this country from a pig thing into a peoples thing, we'll have to pick up the gun. The pigs have been brutalizing and killing our people for too long--we've got to be prepared to defend ourselves and our people. And we know that just as the revolution is a collective thing, people doing it together, so is self defense.

As more and more brothers and sisters from different neighborhoods get serious about making a revolution, they ask "how are we going to win?" and "what do we do now to begin to build the army that we're going to need?" You see, these brothers and sisters are for real and don't dig that peace creep shit. They have serious questions about how we're going to make the revolution. What is the next step? These questions need serious answers, so we should check out what other revolutionary groups are doing. And we shouldn't look for bullshit answers--we should look to a group that has been moving in a revolutionary way for a long time. a group that is leading all of the people to revolution--the Black Panther Party. We should check out what the Panthers are doing about self-defense just as we learned about free breakfast and free medical programs from the Panthers. Recently, the Panthers paper has been running a series of articles called "Organizing Self-Defense Groups." We dug those articles and think that they will answer some of the questions that the most serious brothers and sisters have about what we should be doing. So we're going to run a series in Angry on self-defense groups that is based on the series that the Panthers ran. You see, if you really want to know what to do next and aren't bullshit these articles might help you. Its where a lot of us are at!

ORGANIZING SELF-DEFENSE GROUPS
(first in a series)

A self-defense group is different from a gang or a tight group of friends because it is made up of revolutionaries with the goal in mind of making a revolution. The purpose of a self-defense group is to defend ourselves, our people and our communities from the pigs Our actions will educate others to form their own self-defense groups. When that happens, we can move the struggle to a higher level. Right On!

In organizing self-defense groups at this stage of the struggle, the most important consideration is whether or not the people who're going to be in the group understand fully that what she or he is doing is the right thing to do. You've got to believe in it whole-heartedly. At this stage of the struggle if any members of a self-defense group are weak minded or don't understand that the only way to put an end to the brutality and murder by this racist power structure is to organize self-defense groups and counterattack, practice has shown that if this weak minded person is ever captured, he or she will certainly not be able to withstand the methods of persuasion used by the fascist pigs and they will talk and give up information. So the first priority for any self-defense group is to be armed ideologically--to fully understand what the revolution is about and how we're going to make it.

Because of the consequenses if anything goes wrong during an operation, members within the group must maintain a face to face relationship, get to know each others' strengths and weaknesses thoroughly, and participate fully in the planning of operations. Liberalism (not being straight with each other) at this level can cost the lives of comrades and/or jeopardize the success of an operation.

At this time self-defense groups should have no more than 4 to 6 members. The struggle at this time requires no operation that can't be handled by 4 to 6 people. Also security is sacrificed with a larger group. Self-defense groups should be formed across the country. However, at this time groups should work by themselves. Under no circumstances should any group seek out and try to contact another group. Due to the fact that the struggle is in a very early stage and there are fools, agents, and provacateurs scattered all over the city and country, if autonomy is maintained when a member of a group is captured, he or she will be able to give up information only on their own group.

Once we understand the basics of self-defense groups we've got to know the enemy. At this time the pigs have three things going for them:

1. Communication (C)
2. Mobility (M)
3. Information (I)

When planning any operation the Pigs' CMI must be taken into consideration. Next issue, part 2 will deal with self-defense weapons and training.

Build your group!
Counter Attack!

...and PRACTICE!!

"...Only by taking up arms can we seize power. Without taking up arms we cannot attain power... In order to seize power we should wage an armed struggle; it is impossible to seize power by playing elections."

...POWER TO THE PEOPLE

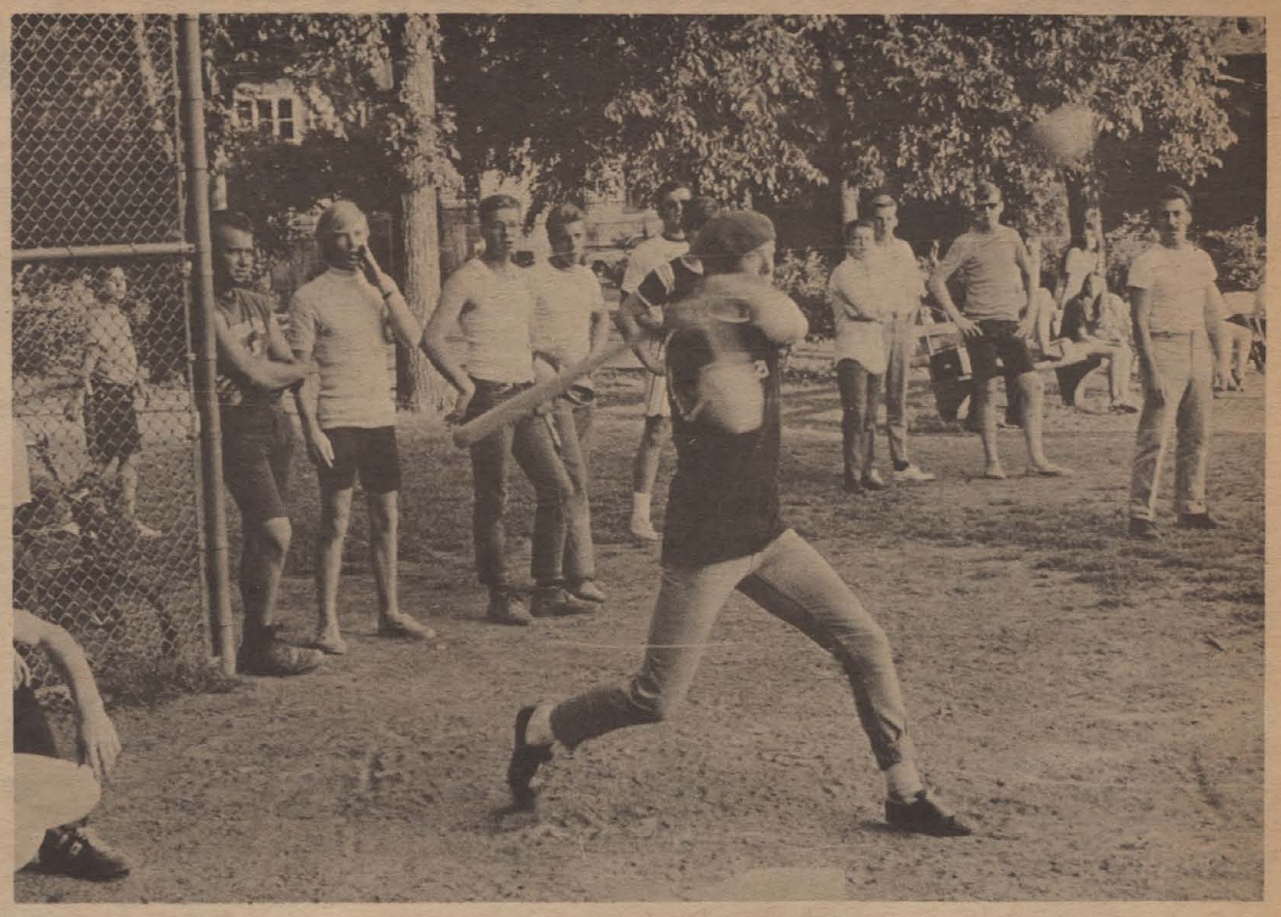
We had a gym teacher at high school (just call me coach) who used to line us all up--by height of course--and say, "Sports is like life--if you're a loser in here, you'll be a loser out there," or something like that. It didn't make much difference anyway, because we never listened to the dude--looking like a chump in his little baseball hat, satin jacket, and black high-cut U.S. keds.

What the cat was saying wasn't right anyway. Especially if you're talking about team sports--like the softball teams some guys in parks and neighborhoods put together. "Out there (says coach) in that 'real world' you get ahead by messing over other people. And the more people you mess over the higher in the system you get. The biggest pig gets there by messing over the most people.

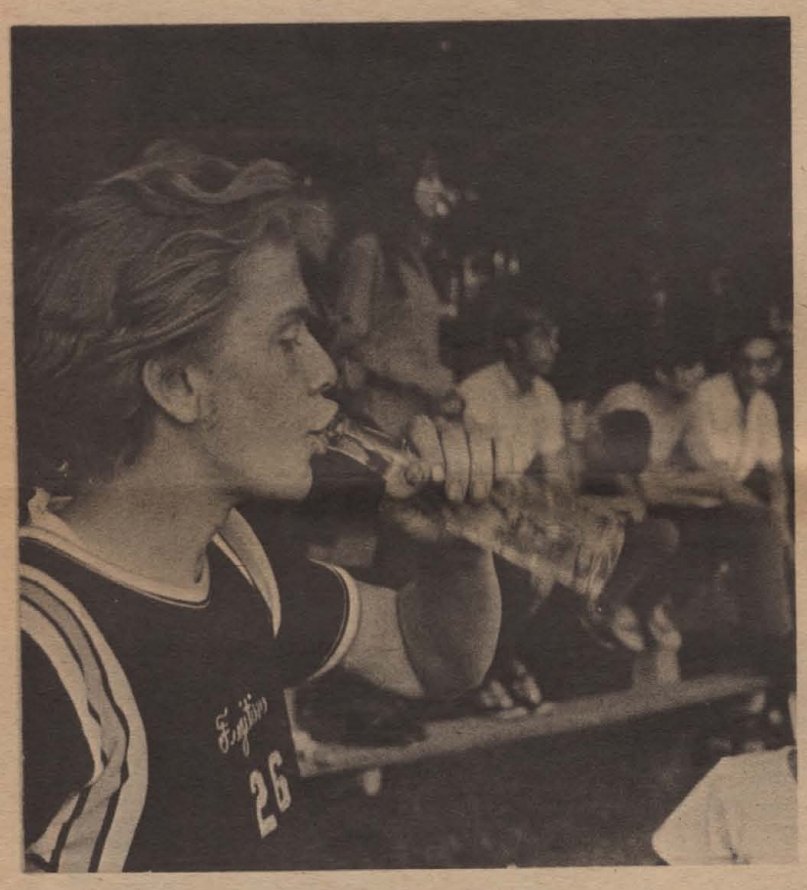
But on a team it's a bunch of people working together, helping each other because everybody knows that they can't make it without everybody else. You can't play all the bases, and cover left, center and right fields all by yourself. You're on a team. Everything you do has got to be for the good of everybody--not just for yourself.

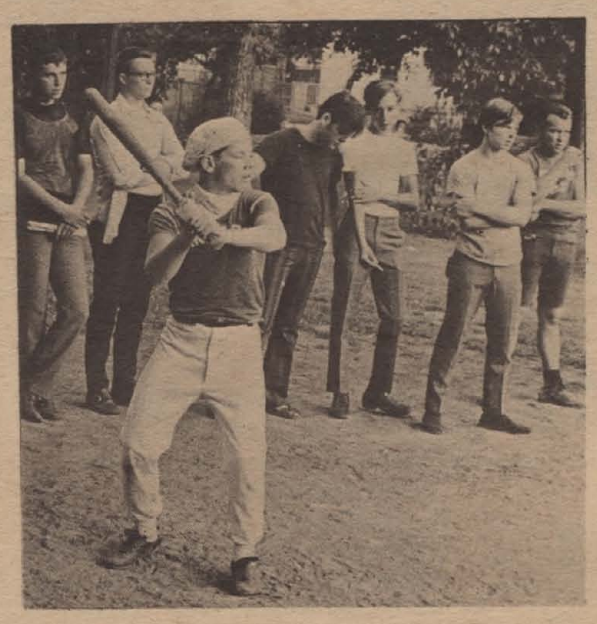
Now, dig: we're just using this softball thing as an example. Winning a trophy ain't what it's all about. But working together, being together, helping each other is.

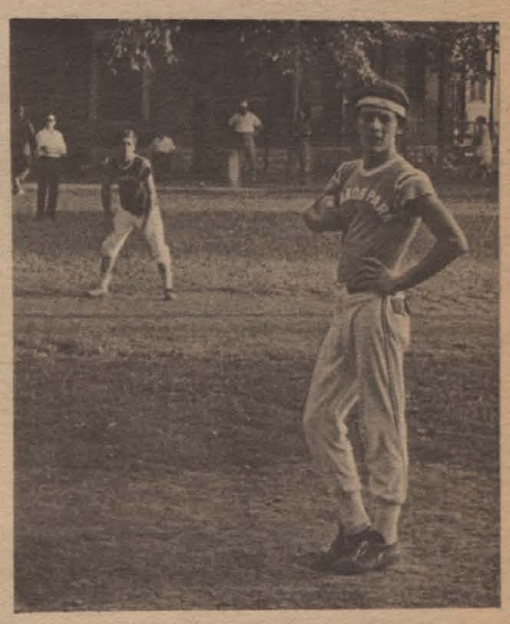
It's what the revolution's about. It's the difference between working for the man to get yourself ahead and working with all the people to get back the things that really belong to us. It's the Group--not just the individual. And not just your own small group from the neighborhood. But all neighborhoods which the people who get fucked with by the man and system live in. That's not just whites. It's blacks, latins, Indians. It's people all over the world. It's what the Revolution is all about.



GAMES







One of the softball leagues around the north side is the Brandts Park League. There are 5 teams--WILSON PARK, BRANDTS PARK, INDEPENDENCE PARK, LUGERS (also from Brandts Park) and PURPLE MYSTICS (from Diversey and Albany). These teams are made up of guys who have smoked and drank together in their neighborhoods and parks. They decided to form softball teams. They played 16 games this season. The championship game was Thursday, July 16th, between Wilson Park and Brandts Park. After an emotion packed game and valiant rally by Brandts in the last inning, Wilson won 10-4. So Wilson got the trophies and will have to defend 'em next year. But the good thing about this league is that there aren't any hard feelings. Sports are a gas as long as they don't keep the people divided. RIGHT ON!

"... autumn wind
autumn rain and autumn cold
chills; then one hears the sound of flutes
coming through the hills;
guerillas have returned
and I rejoice that wine enough
is left for them."

GOING HOME

A lot of you brothers and sisters have heard about the middle east war, but how many of you really thought about it? The middle east is in northern Africa, and the trouble started after World War I. As soon as the war was over the winners decided to split the world according to their own interest. The British got the part (of the middle east) which included Palestine. They planned on making Palestine a Jewish state because of the help the Zionists gave them during the war. Zionists are the Israelis who have been oppressing the Arabs ever since the war ended. They are Jews who believe they have a holy right to the territory of Palestine even though the Arabs have lived there for 2,000 years.

In 1917 Arthur Balfour, the foreign secretary of Britain, issued a document that set Palestine up as a national Jewish state. At this time 94% of the population was Arabic and this fucking pig Balfour was going to give their country to the Israelis. The Arabs protested and a lot of shit like that, but could never get anything together. Finally, after World War II, the British government allowed thousands of Jews to enter Palestine, and the whole thing blew up. Great Britain was forced to bring the question to the U.N. The U.N., which is nothing but a front for a bunch of chump imperialists, declared the formation of the state of Israel, which would control 54% of the land in Palestine. When the fucking chumps in the U.N. made this statement, only 6% of the land was owned by the Zionists. The Arab government protested but not too loudly, because they were making a lot of money off the U.S. and British investments in the rest of the Arab lands. These chumps were just as bad as the Zionists because they didn't care for their people, they were just interested in making money. So during these hassels the Zionists acted quickly and stole another 26% of the land, and now controlled 80% of Palestine.

Ever since this time the Israelis have treated the Arabs as slaves, exiled them from their own land, and forced them to live under inhuman conditions. Under the disguise of religion, the Zionists have committed acts of imperialist aggression upon the Arabs that has extended beyond the Palestinian borders. For example, on the western bank of Palestine, Israel has completely destroyed dozens of villages in a most savage way, wiping out every sign of life and brutally throwing the people out of their homes, leaving them without food or clothing, in an effort to kill all Arabs in this region and take over the territory. Millions of arabs are scattered around the arab countries living in refugee camps because their families and homes were destroyed by Israel.

The U.S. supports the Zionists because they know if the revolutionaries win they will kick out the U.S. owned oil corporations, and also because most wealthy Jews in the U.S. support Zionism and the U.S. government with money. Money means more than people to imperialist countries.

Out of these injustices done to the Arabs and because of the Israelis' desire to keep on expanding its territories, the Arabs have formed united revolutionary organizations, one of them called Al Fateh. They are fighting for the right of all people to be free. In the words of Yasser Arafat, its leader, "We are fighting today to create the new Palestine of tomorrow. A unified democratic non-sectarian Palestine in which Christians, Moslems, and Jews worship, work and enjoy equal rights. This is no utopian dream or false promise, for the Palestinians have always lived in peace. Moslems, Christians and Jews in the Holy land.

Last February, the revolutionary Arab organizations decided it was time to unify, and formed the Palestine Liberation Organization. Rising Up Angry supports the Palestine Liberation Organization and recognizes the right of all people to fight for their land and freedom.

they're winning and we're gonna win here too

REVOLUTIONARY WOMEN, ON THE OTHER SIDE
OF THE WORLD, ARE FIGHTING U.S. IMPERIALISM

Right now we're so caught up in the day to day reports of the murder and torture going on in Viet Nam - so confused by the lies the American government is telling us in order to justify the killing of the brave Vietnamese men, women and children - so afraid that our own brothers are the next to be sacrificed in order to keep this war machine running - that we hardly have time to cut through all the bullshit and find the real reason for this atrocious war.

Nixon says we are fighting for the freedom of the Vietnamese people. The Vietnamese people are thrown in 'tiger cages' without food or water, lye is poured on them and guards urinate on them. All this is done to them by Nixon paid 'freedom fighters'.

Nixon says we are saving Viet Nam from the corruption of communism. General Ky, the 2nd most powerful of the Nixon paid dictators in Saigon, brings home 10 to 15 thousand dollars a week from the race track while his people are being slaughtered in the villages - such as My Lai. This goes on with the aid and blessings of not-so-incorruptable America.

Nixon says we will pull out of Viet Nam - and we move in on Cambodia. One brother heard Nixon say on the radio that he was going to dispatch troops to Cambodia when the brother was already many miles inside the Cambodian border.

Campuses all over the country are in an uproar. Over 50% of the population is against the war and 50 thousand American G.I.'s have been sacrificed. Nixon knows this. All the people in power know this. Why does this war go on? Why doesn't Nixon listen to the people? Can it be that American business interests and investments are more important than people's lives - our brothers' lives - Vietnamese lives? How will it end? Maybe we should study it a little closer.

We hear a lot about the Viet Cong being a national threat to Viet Nam. The V.C. aren't a national threat. The V.C. are a threat to the US businessmen who are using their war machine to keep the Vietnamese people from determining their own fate. The V.C. are the Vietnamese people - who are fighting for a better way of life (a good way of life) for their people. They are fighting a system of oppression that has poisoned people all over the world. That system of everything to the few rich and nothing to the many poor. They are fighting and winning against the best in the rich-get-rich-and the-poor-get-poorer game -- American Imperialism.

For a long time, pig America has kept an eye on S.E. Asia. The countries are basically farm economies - with landlords owning the land and peasants paying to work the land. There are a few middle class peasants who are able to own their own small portion of land, but the majority of people are hard working and near starving. Western countries, like Britain, France and America, with more developed economies, set up businesses in these countries so they can hire the peasants as cheap labor, provide new outlets for their products and rob the land of material resources such as minerals, rubber and rice. They are able to do this because the landlord types cooperate with them in return for some of the profits and military aid in case the peasants revolt.

G.I. BROTHERS, ON THIS SIDE OF THE WORLD, ARE GETTING HIP TO THE REAL ENEMY

The French had just such a set-up in Viet Nam until 1954. It had lasted almost 70 years. There were constant peasant rebellions during that time but the French army always managed to put them down. A young Vietnamese patriot, Ho Chi Minh, left the country to find support for the peasants struggle in Viet Nam. He studied Lenin and communism and brought back to his people an idea and a way to make it work. The first progressive step in centuries came with the idea that the land was there to be shared and worked equally by all the people and the profits would be shared by all the people according to their needs. The way to make it work was to form a communist party to educate and organize the masses of people into an army that would throw the oppressers out and allow the Vietnamese to build a new society. The army, under the leadership of Ho, was made up of poor peasants, middle class workers and even some landlords who knew communism was good. Their strength was their love for the people and they were winning against the French. When the U.S. pig government saw this they poured money into the French army. If communism won in Viet Nam - the other countries, Cambodia and Laos, would win too. The people would no longer stand for foreign investors exploiting them and taking over their economies.

So - when the French were defeated in Viet Nam, the U.S. already had a foot in. They found a Vietnamese pig (Diem), a traitor to his own people, who was willing to play America's puppet Vietnamese leader for promises and profit. Promises of military and financial support to build a traitor army in South Viet Nam and profit for his own pocket. When Diem was murdered, the U.S. military had another pig ready; since then we have sent thousands of troops over there and spent billions of dollars trying to keep that phoney government in power.

But a funny thing is happening on the other side of the world. The puppet South Vietnamese army keeps getting smaller - weapons are disappearing all the time - the Vietnamese people don't seem to understand that 'communism is the enemy'. People in Cambodia and Laos don't seem to understand either because they are building 'peoples armies' - communist armies to face the threat of American Imperialist troops trying to 'save them for freedom' too.

A funny thing is happening on this side of the world too. A lot of our brothers are protesting the draft and refusing to fight in Viet Nam. A lot of brothers are going AWOL and on armed forces day they had to keep most of the bases closed because of the threat of violent anti-war demonstrations.

Imagine this: A Vietnamese peasant trys to plant some rice in a burned out field - hoping it will grow so he can feed his family and pay most of it in taxes to the American supported puppet government. He looks up just in time to see an American bomber drop a bomb on his house - killing his wife and children. He says, 'Thank you America - thank you for my freedom'.
Can you imagine it? We can't!

FREE LONNIE McLUCAS

When Bobby Seale, Chairman of the Black Panther Party, was charged with murder in New Haven, Conn., 8 other Panthers were charged along with him. One of those is LONNIE McLUCAS, Area Captain of the Black Panther Party, whose trial for murder is going on now. The prosecution has denied the Panthers' demand that all 9 Panthers be tried together. There may be as many as 5 separate trials in New Haven, instead of 1 joint one. The prosecution, in separating McLucas and speeding up the proceedings against him, hopes to push their one quickie trial in this case, get a conviction, and then use it against the other defendants when their cases come to trial later.

McLucas is one of the 9 Party members including National Chairman Bobby Seale and Deputy Chairman Ericka Huggins, who have been charged with kidnapping and murdering Alex Rackley, who the pigs claim was an informer. The Panthers say Rackley was a Party member in good standing who was murdered by George Sams, a psychotic pig agent.

By trying Lonnie separately the pigs want to divide and conquer the defendants and the Black Panther Party They feel they can convict one Panther of the murder of Alex Rackley--thus opening the door to convicting in the other cases.

This is a political trial and the Black Panther Party is not quilty. All political prisoners will be freed only by increased efforts of those of us on the outside! Dig it!

Rising Up Angry will not be separated from the Panthers. Free Lonnie, Free Bobby, Free Ericka, Free the New Haven 9, and Free All Political Prisoners Now!

SOLEDAD BROTHERS

Three of our black brothers are facing the gas chamber in California. They are charged with murdering a white prison guard. Here's how the story goes: On January 13, at Soledad prison, there was a racial fight in the yard. Instead of breaking up the fight, which the guards helped provoke, one guard shot from the tower into the fight killing 3 black prisoners and wounding 9 white prisoners. On January 16, the Monterey County Grand Jury said these cold blooded murders were "justifiable homicide." Minutes following the public release of this decision, prison guard John V. Miller was found dead, apparently of a beating. The deputy superintendent of the prison said this killing was an act of revenge for the earlier murders. The 146 inmates of the wing where the guard was killed, who had been out of their cells, were immediately locked in isolation. With promises of early parole, threats, and a few beatings, the pigs got some prisoners to talk. After 8 days of this, the pigs charged George Jackson, Fleeta Drumgo, and John Clutchette with murder. If convicted all 3 of the brothers face the death penalty, but in the case of Jackson, the gas chamber is mandatory even if acquitted on the murder charge. This is because death is mandatory for any inmate serving a life sentence who strikes a "non-inmate and draws blood." Jackson's life sentence is on a 1 to life indefinite 2nd degree robbery charge.

These brothers have been singled out for death because they are revolutionaries. But there has been a great deal of support at the trials. We can't let these brothers be executed. Rising Up Angry stands with the Soledad Brothers and demands that they be set free! We need our brothers beside us!

BUST INFO - - - CUT THIS OUT !!!

A PIG IS A PIG If you are stopped by the pigs you don't have to answer any questions except your name and address. (It's not a bad idea to have a cover address of a straight person who will verify that you live there.)

But remember--refusing to answer a pig's questions will probably make him mad enough to arrest you on a city disorderly charge or some other nonsense.

IDENTIFY THE ENEMY If the person who stops you is in plain clothes ask him to show his identification. Remember his name and badge number so you can give it to your lawyer.

STOP AND FRISK A pig can stop and frisk you if he thinks you have a weapon or if you are doing something "suspicious." If you are carrying a gun he's going to tell the judge that he saw the bulge. If you are holding dope don't throw it away if the pig can see you. Eating it is the best idea.

HOUSE SEARCH Supposedly pigs can not search your house unless they have a warrant or unless they are in "hot pursuit" of a criminal. If the pigs come to your house, ask if they have a warrant. If they don't you don't have to let them in. If they say they have a warrant tell them to slip it under the door or somehow to get it to you without your opening the door. If you have dope don't let them see where you get rid of it.

CAR SEARCH If a pig stops you while you are driving get out of the car right away with your license and registration. This way he cannot say that when he stepped up to the car the dope or weapons was in "Plain View."

PHONE CALLS After you are arrested and booked you have the right to make phone calls. If you don't tell them your name and address and let them fingerprint you the booking process is not complete and you will not be able to make your phone calls. You should be entitled to make enough calls to get a lawyer and to get bail money. If you can't get in touch with a lawyer directly, call someone who can call a lawyer for you.

DO NOT MAKE ANY STATEMENTS OR SIGN ANY STATEMENTS ABOUT THE CRIME. IF THE PIGS START QUESTIONING YOU TELL THEM YOU WANT YOUR LAWYER.

BAIL If you are arrested on a city offense the bail is normally set at the pig station at $25. If you are arrested on a state misdemeanor charge which is punishable by only a fine the bail is $50. On misdemeanors where you can get prison time the bail is $1000 which means that you have to put up $100.

On some misdemeanors and all felonies the pigs will not set bail. A judge will set the bail and in order to be released you have to post 10% of the amount.

COURT If you are in custody when you are brought before a judge ask him to set a recognizance bond, which means that you won't have to put up any money. This will depend on the crime you're charged with, whether you've ever been arrested before and how long you've lived in Chicago.

You have the right to a continuance on your first time up in order to get a lawyer. Anytime the judge is going to force you to trial and you don't want to go, ask for a jury trial. They will have to transfer your case to another court.

Don't trust the Public Defender. He doesn't have time to prepare your case. Always have your own lawyer. If you don't have money for a lawyer call Rising Up Angry. 472-1791
